## Report On Entrepreneurship Skills Programme

Sir Vishveshwaraiah Institute of Science and Technology faculty are participated the program on **"Entrepreneurship Skills Programme".** During all the sittings, it is informative and experiential learning. The main objective of the program is to motivate youth and other people to set up their own industrial/self-employment venture. Such activities are also organized in ITIs, Polytechnics and other technical institutions/business schools, where skill/talent is available to motivate them towards self-employment. ESP is an intensive business-planning training program designed to help participants who want to start a new business, grow an existing business, or make a substantial business pivot that requires viewing the business with a new perspective.

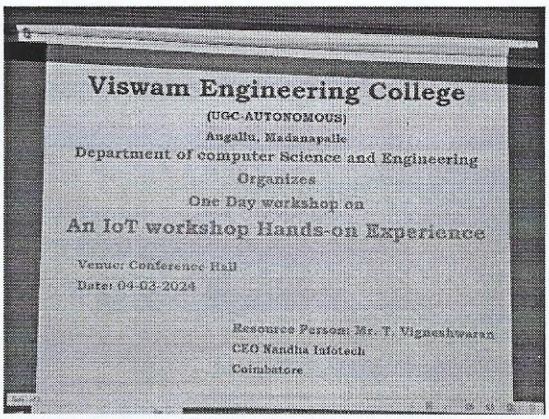
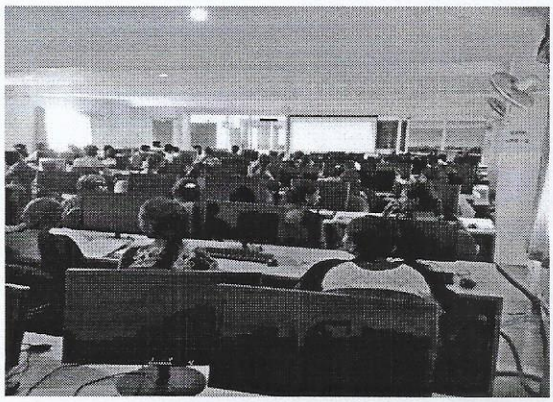
**Program Report on** An IoT Workshop Hands-on Experience

The IoT Workshop – Hands-on Experience was successfully conducted on 04-03-2024 at Conference Hall Viswam Engineering College. The workshop aimed to provide participants with practical exposure to IoT technologies and applications, enabling them to create their own functional IoT projects. The event received enthusiastic participation from students and professionals alike, eager to delve into the world of IoT.





**The following objectives are performed in this workshop**

To introduce participants to the fundamentals of IoT and its architecture. To guide participants in setting up IoT devices and exploring IoT ecosystems. To provide hands-on experience in developing IoT projects using sensors, microcontrollers, and cloud integration. To highlight industry applications and trends in IoT technology.

An ISO 9001:2015, Certified Institution
Angallu, Madanapalle, 517325 Annamayya district, Andra Pradesh.

**The following outcomes were accomplished in this workshop**

- Participants successfully developed and demonstrated their IoT projects.
- Enhanced understanding of IoT technologies among attendees.
- Positive feedback from participants, with many expressing interests in further advanced workshops.

Finally, The IoT Workshop – Hands-on Experience was a resounding success, achieving its objectives of providing practical exposure to IoT technology. It fostered enthusiasm and skill-building among participants, encouraging them to explore this transformative field further. We extend our gratitude to the organizing committee, speakers, and participants for their valuable contributions to the workshop's success.

## Department of Computer Science and Engineering

**Report for** Seminar on Art of Ethical Hacking

The seminar on "**The Art of Ethical Hacking**" was held on 29-01-2024 at Conference Hall. The event was organized to create awareness about ethical hacking principles and techniques while emphasizing its importance in safeguarding digital infrastructure. Attendees included a diverse group of students, IT professionals, and cybersecurity enthusiasts.

The objectives of this seminar are to introduce the concepts of ethical hacking and its role in cybersecurity. And highlight the importance of ethical hacking in identifying and mitigating security vulnerabilities then to provide insights into ethical hacking tools, methodologies, and best practices to encourage participants to explore career opportunities in ethical hacking and cybersecurity.
